## Atmospheric Design Specialists Bringing Your Home To Life

Our mission is to help you create an atmosphere that makes you feel truly **at home** in the space where you live.

We offer a service no other interior decorating or design business offers. A service so complete, the words interior design are not enough to describe the benefits you'll receive.

Not only do we help you design an interior that looks good visually, you'll be guided in creating a total atmosphere that looks, feels, smells, and sounds good. That's why we are the Atmospheric Design Specialists.!

To achieve this, we have a unique tool - **The Personal Atmospheric Design Profile** - that is administered as a part of our work with you and your home.

This tool is not available anywhere else, and will reveal the lighting effects, materials, objects, textures, patterns, sounds, scents, and colours that are specifically suited to you.

It's a real eye-opener, and a must if you want to create the home where you belong.

Our sessions may be conducted with one person, a couple, or a whole family giving their input, but the Personal Atmospheric Design Profile itself is very in-depth, and more appropriate for adult input.

To give you the maximum benefit from your time with us, we leave you with your own Atmospheric Design Kit, so you will always have assistance when decorating any room in your home.

After your session, you will have ideas and knowledge to guide you through the decoration of your present home, plus any home to come.

Of course we are available for follow up visits and advice. Returning clients always receive excellent price benefits.

**at home: The Atmospheric Design Specialists.**
