

This homepage copy was created to launch a website that plants trees on behalf of individuals and companies.

What we do:

Trees 4 Survival works with companies and individuals to offset their greenhouse emissions.

We calculate the greenhouse emissions you produce, and offset this by planting trees.

Did you know that the average household or small business emits about 40 tonnes of greenhouse gases per year?

These greenhouse gases are the main causes of global warming, altering the conditions required for life on earth.

However, **you can completely neutralize** your personal or company/business effect.

All it takes is one small investment, and you can help us to save the environment [tree by tree](#).

Whether you buy 1 tree, 100 trees or 1000 trees, you will make a positive and measurable difference to pollution levels.

Your native tree will be nurtured from a seed to a seedling. From a seedling to a sapling. And then, to a fully grown tree. It will be tended, protected, and cared for so that it can play an ongoing role in the regeneration of our environment.

Once you've purchased your tree you will receive a certificate to recognise your personal contribution.

Your tree will never be given to anybody else. Each new tree is carefully germinated and grown from scratch. And, every year your tree will be amongst those audited independently to guarantee and ensure the authenticity of the Trees 4 Survival re-generation program.

A tree from Trees 4 Survival also makes a tremendously thoughtful gift. Why not ask for your next birthday or Christmas gift to be a tree?

Or buy a tree for someone else?

Companies and big business:

Does your company have an environmental conscience?

What kind of environmental message are you sending to your customers and clients?

Show them you're serious about your responsibility to the community, and buy trees to neutralize the greenhouse gases you're emitting.

Get your environmental policy noticed for all the right reasons!

Your association with Trees 4 Survival will tell the world you're dedicated to making your environmental impact a positive one.

The authenticated certificate or plaque you receive will showcase your company's contribution towards the reduction of green house gases. You'll also gain permission to use the official supporters of Trees 4 Survival logo on your website.

You can use this logo on all your marketing materials, brochures, website, flyers, company reports, annual reports. In fact anywhere you'd like your contribution to be noted.

Trees 4 Survival will also constantly undertake marketing and publicity to highlight its corporate sponsors and supporters. And, you'll be featured on our website's [sponsor's page](#).

Everyone wins: [your company](#), the environment, and most importantly our planet and its people.
